

*Introducing...*

# Dennis J. Kucinich

Democratic candidate for President, 2004

---

I have the pleasure of introducing a very significant candidate for United States president. He is no stranger to our Muslim community – I am certain that you may recognize him. During his long tenure in the House of Representatives, this Congressman's office, both his District office in Ohio and his Washington Office on Capitol Hill, has employed more Muslim Americans than any other House or Senate office out there. He has had working in his office, two Muslim Americans whose parents hail from India. A Muslim American whose parents come from Damascus was a long time employee of Congressman Kucinich. And since his first day in office the Congressman has employed a Muslim American woman who hails from Jerusalem in his district office in Cleveland.

And this man not only hires us, he inspires us. Dennis Kucinich, ranking member of the Government Reform and Oversight Committee, co-chair of the Progressive Congressional Caucus (the largest caucus of Democrats in Congress), and now one of the nine contenders for the Democratic Presidential nomination, is the only candidate running who voted against the misnamed Patriot Act – which has threatened so many of our civil liberties. He is the only candidate running who voted against the war on Iraq. He not only says the right things, he **does** the right things – and he has a voting record unlike any other that proves it. He is a Seeker of Truth. He is a man of Principle, a man of Vision and a man of Peace. He has long been a friend of the Muslim American community and we need to support him. Please join me in helping to elect the Honorable Congressman Dennis Kucinich to the position of United States President.
